Well Being - But for whom? The Market Segmentation -

Indian Insurance Industry - Customer Demographics -

31-45 yr

Avg age of insurance buyer (India)

>60%

Insurance holders are from non tier-1 cities

Therefore our strategy must be inclusive towards avg 40yo Indian in T2+ city !

Kotak's Moat

2M+

Proprietary Health Data of 2M Insurance holders

Target User Personas

The Diseased Millennial -

Kotak's proprietary data enables personalized targeting, and HappyYou App can help recovery! It's a match.

The Distressed Young Adult -

Mental health related apps are gaining popularity, and these can be future customers

2218

Physical Branches

5.2Cr

Kotak Group's overall Customers

Why them

Approximately **30% of Indians** remain uninsured and often lack structured medical guidance despite government initiatives.

Non-communicable diseases (NCDs) - account for approximately **63% of all deaths** in India.

Nearly **42% of young adults** in India exhibit signs of pressing psychological crises.

Communication Plan -

OBJECTIVE:

Position HappyYou as:

- a proactive wellness companion
- a daily engagement platform
- a complimentary, trusted 'Health Valet' to reduce medical anxiety

BRANDING OPPORTUNITY:

Enables Kotak Life to interact daily through:

- wellness tracking
- rewards
- preventive health
- personalized engagement

This increases:

- brand recall
- trust
- customer retention
- cross-sell opportunities

Brand Positioning of Kotak Life with HappyYou:
From Insurance Provider → Everyday Wellness Companion

MULTI-CHANNEL OUTREACH STRATEGY:

Digital Ecosystem:

- **In-App/Site Integration:** Pitching the app as a "FREE benefit" during the insurance purchase journey on the Kotak website.
- **Transactional Marketing:** Inserting app download prompts within monthly premium payment reminders and digital renewal notices.
- **Social Media:** Utilizing Kotak's existing social channels to share "Health Hacks" and community success stories.

Physical Infrastructure:

- **Branch-Level Awareness:** Deploying banners and QR code displays across Kotak's 2,218 physical branches to bridge the gap for customers in Tier 2+ cities.

TARGET SEGMENTATION:

Existing Policyholders/The "Diseased" Millennial (Recovery Focus):

- Use proprietary health data of the **2M+ policyholders** to send personalized nudges
- "Fight [specific condition] today with small steps."
- "Use the **Weight Watcher** and **Cal-Count** features to track progress."

The "Distressed" Young Adult (Mental/Physical Wellness Focus):

- Position the app as a tool for emotional balance and future health security.
- **Campaign eg:** "Things will get better."
- Promote the **Pillow Time** (sleep tracking), **Unwind** (mindfulness), and **Thought of the Day** features to build daily engagement.

User Acquisition Strategy -

Leveraging existing communication channels for marketing - builds on existing infra

Kotak Site Pitch **FREE app for you**

- Policy purchase flow banner
- Wellness benefits
- SMS/Email download

Why: Captive intent

Monthly Payments

- Payment success page/email
- Wellness score teaser
- Health nudge

Why: Regular touchpoint

Social Media

- Targeted FB/Insta/YT ads
- Expert wellness content
- Success stories

Why: Builds awareness

Physical/Banners

- Branch posters/standees
- RM/Staff interactions
- QR code download

Why: Human trust
